

Sixth International Conference on Advances in Osteopathic Medicine

at the

British College of Osteopathic Medicine

London

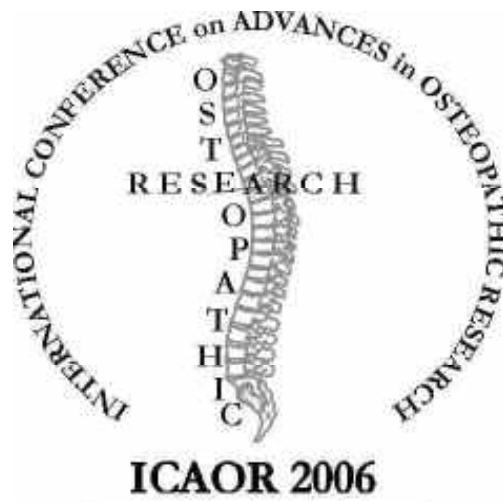

31st March ~ 2nd April 2006

CONFERENCE PROGRAMME

Hosted by

BRITISH COLLEGE OF
BCOM
OSTEOPATHIC MEDICINE

Supported by

Conference Venue

Douglas Drysdale Lecture Theatre
Frazer House
6 Netherhall Gardens
Hampstead
London NW3 5RR

Nearest Public Transport

London Underground
Finchley Road Station
Metropolitan & Jubilee Lines
Overground Rail
West Hampstead & Frognal and Finchley Stations

PROGRAMME

Friday, 31st March

<u>Time</u>	<u>Event</u>
3.00 - 4.00	Registration
4.00 - 4.15	Welcome Address
4.15 - 5.15	IJOM Writing Workshop – Rob Moran & Nic Lucas
5.15 - 6.15	Keynote Speaker - Matt Wallden “The hamstring syndrome”
6.15 - 7.15	Champagne Reception/Poster Session

Saturday 1st April

<u>Time</u>	<u>Event</u>	<u>Title (Presented by)</u>
09.00 - 09.30	Registration	
09.30 - 10.30	Keynote Speaker	- Professor Ann Moore "Manual Therapy and the Evidence"
10.30 - 11.00	Tea Break	
11.00 - 1.00		<ol style="list-style-type: none">1. The electromyographic activity of thoracic paraspinal muscles identified as abnormal with palpation. (Gary Fryer, Victoria University, Australia)2. Assessment of the Measurement Tools of Dysfunctional Breathing. (Rosalba Courtney, RMIT University, Australia)3. The effect of different rates of application of a rib raising technique on pain pressure threshold in asymptomatic individuals. (Cameron Gosling, Victoria University, Australia)4. Investigation into the affectivity on cutaneous blood perfusion of different application time lengths of cold hydrotherapy. (Shelly Crossland, BCOM, England)5. An initial investigation into the possible influence of Reactive Oxygen Species (ROS) in chronic nerve compression injuries and the effects of Osteopathic Manipulative Therapy (OMT) (Mark Andrews, LECOM, USA)

ORAL PRESENTATIONS

Questions and Summing up led by Session Chair (Nic Lucas)

1.00 - 2.30	Lunch and Poster Session (Sa1)	
2.30 - 4.30		<ol style="list-style-type: none">6. The effect of osteopathic treatment on people with sub-chronic and chronic neck pain. (Jarrod Alivizatos, Canterbury Road Health Clinic, Australia)7. The temporal effect of a high velocity thrust techniques to the lumbar spine on cutaneous blood flow in the lower limb, comparing smokers and non-smokers. (Julian Howard, BCOM, England)8. Trunk and limb muscle activity during the application of a mobilisation type force to the vertebral column. (Raymond Blach, University of Western Sydney, Australia)9. Does an osteopathic treatment have an influence on the symptoms of patients with a chronic abacterial prostatitis/chronic pelvic pain syndrome (CPPS)? A randomised controlled trial. (Sylvia Marx, College Sutherland, Germany)10. Osteopathy alleviates pain in chronic non-specific neck pain: A randomised controlled trial. (A Bischoff, COE, Paris-Munich-Cologne)

ORAL PRESENTATIONS

Questions and Summing up led by Session Chair (Peter Gibbons)

4.30 - 5.00	Coffee Break
5.00 - 6.00	Poster Session (Sa2)
8.00	Conference Dinner

Sunday, 2nd April

<u>Time</u>	<u>Event</u>	<u>Title (Presented by)</u>
09.00 - 09.30	Registration	
09.30 - 10.30	Keynote Speaker - Steve Vogel	Psychosocial Evidence in Osteopathy – Research and Practice
10.30 - 11.00	Tea Break	
11.00 - 1.00	11.	Patient compliance to exercise prescription at the Victoria University Osteopathic Medicine Clinic. (Cameron Gosling, Victoria University, Australia)
	12.	The correction of vertebral joint dysfunctions changes cerebrovascular and cerebrospinal fluid functional parameters improving some PRM parameters. Alfonso Mandara, Inst. Superiore di Osteopatia, Italy)
	13.	Attitudes to back pain amongst musculoskeletal practitioners: differences and similarities between professional groups and practice settings using the Attitudes to Back Pain Scale-Musculoskeletal Practitioners (ABS-mp). (Steve Vogel, BSO, England)
	14.	Lower Extremity Extension Dynamic Test: Sensitivity & Specificity in Diagnosing a Leg Length Inequality (LLI). (Alfonso Mandara, Inst. Superiore di Osteopatia, Italy)
	15.	Patient perception of practitioner intention in Osteopathy in the Cranial Field – a preliminary investigation. (Clive Standen, Sch. Of Health & Community Studies, New Zealand)

ORAL PRESENTATIONS

Questions and Summing up led by Session Chair (Mark Andrews)

1.00 - 2.30	Lunch & Poster Session (Su1))	
2.30 - 4.30	16.	The effect of different rates of application of a rib raising technique on cardiovascular and respiratory measure in asymptomatic individuals (Cameron Gosling, Victoria University, Australia)
	17.	Electromyographic characteristic of deep, thoracic paraspinal musculature . (Gary Fryer, Victoria University, Australia)
	18.	Factors influencing intra-examiner and inter-examiner reliability of palpation for supine medial malleoli asymmetry. (Gary Fryer, Victoria University, Australia)
	19.	The effect of manual pressure release on myofascial trigger points in the upper trapezius muscle. (Laura Hodgson, Victoria University, Melbourne, Australia)
	20.	Reliability of visual assessment for lumbar curves in standing: does clinical experience matter. (Rob Moran, Sch. Of Health & Community Studies, New Zealand)

ORAL PRESENTATIONS

Questions & Summing up led by Session Chair (Rob Moran)

4.30 - 5.00	Coffee Break	
5.00	IJOM plenary session with Rob Moran and Nic Lucas	Award of Prizes - New Researcher - Established Researcher - Best Poster (Sponsored by Elsevier and IJOM) Prize Committee (Nick Walters, Nic Lucas & Rob Moran)
	Closing comments & ICAOR 2007 Announcement
